freight forwarding

About Us: *International freight forwarding*

MOEDA FREIGHT FORWARDING is active as a cargo forwarder for international transportation, is headquartered in Campinas (SP) - Brazil, and services Viracopos and Guarulhos airports, Port of Santos and Brazilian main ports/airports.

The customized service and a team of highly qualified professionals, plus the experience and short response time, allow MOEDA to provide you with the agility you need combined with the peace of mind you desire.

Vision: *The most suitable solution*

The globalization process has been growingly demanding customized solutions. Realizing this trend, MOEDA engages in learning each of its clients' needs in detail, seeking to develop the most suitable solution for the different kinds of demand.

In view of its experience, continuous search for innovation, reliability, commitment, ethics in business allied to a constant vision of the future, MOEDA becomes an important logistic option to your business.

Mission: *Excellence in service performance*

Optimization of the logistic chain and performance of high quality (*) foreign trade services.

() **qualidade [quality] (Michaelis Portuguese language dictionary) qua.li.da.de n. (Latin qualitate) 1 (...) property by means of which something or someone is individualized, distinguishing from the others; character trait, essence, nature. 2 Excellence, virtue, talent. 3 Character, trait, temperament. 4 Degree of perfection, precision, compliance with a certain standard. (...)***

International Logistics

MOEDA provides its clients with tailored logistic solutions, operating in all five continents, at the main ports and airports worldwide. It follows up the cargo from its collection to its delivery. The international cargo forwarding service is provided in the following modalities:

AIR:

MOEDA is partnered with IATA (*International Air Transport Association*) and operates with the main air companies worldwide, seeking to negotiate the most competitive rates with the best international routes.

In addition to air freight, it also coordinates collection at the origin, delivery at the airport, customs services and door-to-door services.

SEA:

It operates at the main ports, offering the best options in shippers, routes and transit time. It operates with the best rates, both for FCL - Full Container Load, and for LCL - Less than a Container Load.

LAND:

MOEDA is partnered with the main companies operating with land transportation of cargo, and therefore is able to service its clients with quality, efficiency and reliability.

WAREHOUSE:

For the purpose of optimizing the foreign trade processes and expediting the product flow, MOEDA is partnered with the main bonded warehouse services (EADI) in the state of São Paulo - Brazil, providing its clients with another alternative in international logistics.

Service Performance

MOEDA's operating structure allows international cargo forwarding and performance of customs services together, in one single place, which favors the provision to its clients of greater agility in customs routines, optimizing time and improving communication channels. The services include:

- ✓ *International freight forwarding;*
- ✓ *Multimodal Transport Operator (MTO);*
- ✓ *Customs Transit;*
- ✓ *Customs Brokerage;*
- ✓ *Import and Export;*
- ✓ *Door-to-door.*

Special services
